

HP S1 DDR4 SO-DIMM

A Sharp Weapon for Laptop Upgrading,
He Gospel for an Innocent Novice

HP S1 DDR4 memory is designed for laptop memory replacement and upgrading. The product uses high-quality memory particles, with large capacity, high frequency and low power consumption. It is highly compatible with motherboards of major laptop brands, ultimately ensuring better performance of laptops after memory upgrading. 5 years of limited warranty service will make even the computer novice feel assured to use it.

Product Features

- **High cost performance without the need of repeated comparisons**

The new-generation DDR4 memory has 4G, 8G, and 16G capacity, respectively, with the main frequency being 2400MHz and 2666MHz, and therefore there are a total of six specifications of products to select from, easily meeting the needs of ordinary laptop users for work, games and entertainment.

- **Quality particles passed rigorous tests, which makes the product more reliable**

Complies with JEDEC standards, features optimal memory particles, and carried out the whole process of rigorous testing, to ensure the quality of components.

- **Wide compatibility, really improves performance**

Passed the motherboard compatibility test of major laptop computer brands and is compatible with laptop motherboards and systems that support DDR4; it will bring real performance upgrading.

- **Energy conservation and environmental protection, adapting to high-intensity work**

Operate under 1.2V low voltage, with high efficiency and low power consumption, ensuring stable performance under lengthy and high-intensity working condition, which is in line with RoHS green environmental protection standards.

HP SSD Advantages

With continuously improved storage technology, HP SSD provides customers with the latest storage solution of high performance in the server and consumer market. Compared with HDDs, HP SSD can improve the performance of your entire system, providing: superior performance, improved start-up time, faster application load times, longer battery life, and better vibration resistance.

As the leader in the PC industry, HP SSD quality assurance begins at the R & D design stage and continues through the whole production process. Quality is designed into every product in accordance with HP's corporate philosophy. HP SSD fully supports HP computer DST self-test to ensure the reliability in use.

HP has an excellent global network of service outlets to support users with questions about the product. We also offer a toll-free customer support hotline, and you can find more details from our HP website.

HP S1 DDR4 SO-DIMM Specifications

RAM	DDR4
DIMM	SO-DIMM
Data Rate	2400MHz/2666 MHz
CL	CL17/CL19
Density	4GB/8GB/16GB
Rank	1Rx8/1Rx8/2Rx8
Voltage	1.20V
Operating temperature	0°C ~85°C
Dimensions	69.60x30.00x3.40mm
Weight	10.5g
Pin	260 Pin
Limited Warranty	5 years
Certification	RoHS、CE、FCC
Reminder	The picture is only for reference, please make the object as the standard
