

# V10 RGB DDR4 U-DIMM

Ideal for gamers, esports enthusiasts and overclockers, HP V10 is a flagship DDR4 memory module built with the best components. With up to 4000 MHz as well as a very low timing (14-14-14-34), the V10 brings you the RGB lights and action of competitive gaming--and the pleasure of overclocking performance for your every endeavor. The stellar design reflects the exceptional speed and performance the V10 brings to your memory system upgrade.

Specially screened  
Samsung B-Die ICs

Speeds up to  
4000 MHz

Supports XMP 2.0  
one-click overclocking

Sync up with  
system lighting

5-year  
limited warranty

## Product Features

### > Selective Samsung B-Die Extraordinary quality

Each memory kit contains specially screened Samsung B-Die ICs through HP's unparalleled selection process. These ICs enable the V10 to offer low latency, high frequency and superb stability.

### > High frequency and low timing Improve PC performance

V10 comes in 8 GB or 16 GB with dual and quad kits for superior performance. The product offers three frequencies (3200 MHz / 3600 MHz / 4000 MHz) with low timings. The lower the timing, the faster the RAM.

### > XMP 2.0 one-click overclocking Ultimate performance

Overclocking gets you the ultimate performance. HP V10 DRAM supports Intel XMP 2.0 one-click overclocking with preset overclocking profiles to improve game frame rates and running speeds.

### > Vivid RGB lighting Competitive atmosphere

With 8 independent lighting areas, 16 million colors, and 10+ lighting controls, the outstanding RGB colorful lighting effect of the V10 is full of gaming sense. Supports ASUS Aura, Gigabyte RGB Fusion, MSI Mystic Light and ASRock Polychrome Sync software to sync with RGB system lighting.

### > International brand quality Worry-free customer service

All HP memory products come with a 5-year limited warranty. The technical team is always ready to provide consumers with worry-free customer service.

## HP Advantage

HP, the world's leading IT company, the world's top 500, business covers IT infrastructure equipment, storage, commercial and home computers, printers, digital imaging and other fields, PC shipments for many years in the world's top, the world's billion industry elite are using. HP continues to forge ahead in storage technology and make every effort to create new storage products, and will continue to be committed to providing high-quality, reliable storage products and services to consumers around the world. HP has a comprehensive after-sales system and service outlets in the global region to provide users with a full range of after-sales services.

## Product Specifications

Basic Specifications			
DIMM Type	DDR4 U-DIMM		
Set	Dual bar set / Quad bar set		
Frequency	3200 MHz	3600 MHz	4000 MHz
Timing	14-14-14-34 16-20-20-38	14-15-15-35 16-16-16-36 18-22-22-42	18-19-19-39
Capacity	8 GB / 16 GB		
Rank	1R x 8 / 2R x 8		
Voltage	1.35 V - 1.45V		
Working Temperature	0 °C - 70 °C / 32 °F - 158 °F		
Size	133.4 x 47.3 x 8.7 mm		
Weight	≤ 75 g		
Pin	288 Pin		
Certifications	CE, CB, FCC, cTUVus, BSMI, KCC, VCCI, RoHS, RCM		
Warranty	5-Year Limited Warranty

 1. Updates are required throughout product life cycle when necessary. HP reserves the right to change product images and specifications at any time without notice.  
 2. All product specifications are under internal test results and are subject to variations by user's system configuration.  
 3. Product are subject to regional availability.  
 4. Instructions for purchasing high-frequency memory: overclocking memory needs to be equipped with a matching motherboard and processor to exert its overclocking performance. Please verify prior to purchase whether your motherboard and CPU support the specifications of what you want to buy. Activate XMP after installation to enjoy the overclocking speed.
